

Science for Australia's future

Bringing science out of the lab and into the...

... everyday life of all Australians

Powered by partnerships

Building partnerships across thousands of organisations in the public and private sectors and NGOs

With a goal to have "one vision" for science engagement across Australia

Our action plan

A national strategy to bring science to the community

Dedicated people to champion science on the ground

- Desert
- Tropical
- Marine
- Indigenous
- Media
- Evidence-based

Experts inspiring Australia where it's needed most

Reach and influence into every level of government

What we're working towards

Building respect for science and motivating the next generation

To engage the community in science – industry, scientists, the media and everyday Australians to have their say and participate
